

Military Involvement

What we believe to be the military involvement with Tim Turner and the De'Jure Republic 5-4-2025

The good guy military started off with a group of patriotic retired generals around the time of the JFK assassination in 1963. They've been working on this plan to save America for 60 years.

That same group of patriots had 300 members killed when they acted too soon, and the Clintons had them killed (during his presidency, 1993-2001). That same group of military were the ones that approached Tim Turner and his colleagues/patriots that were teaching Constitution classes and had a radio show, back in late 2008.

They needed to restore the Republic, before April 1, 2010, because of a treaty/executive order from Pres Bush Sr (1989-1993) when the United Nations would be allowed to take over America in "times of unrest." This is called Suzerainty. Tim Turner prayed and fasted so that God would tell him what to do to restore the Republic. Tim's prayers were answered, and he wrote down the plan that he was told. He brought the plan to the military, and they asked him where the plan came from, because it was the best plan they had seen in 50 years.

The patriots were successful, and had at least 26 states reseeded by that date, from the counties on up. Then in Nov 2010, during the first Continental Congress, Tim Turner was chosen as President of the Republic. In the next few years, Tim attended several meetings with the military in Arlington and Atlanta. That same group of military had a meeting with two members (retired military) of the Republic in 2013. Two retired generals and their staffs had a three day meeting going over every single word and sentence in the Republic's Declaration of sovereign intent, and Proclamation of claim and interest. These were the documents that were noticed (with receipts) to the United Nations, Universal Postal Union, The International Court at the Hague, and other required organizations, as required by international law. At the end of those days with the generals, everyone understood what had been accomplished and that it was 100% constitutional and lawful.

They declared the Republic was the authentic government of the United States of America. One of those generals became very active with the Republic for many years. In 2013, Tim Turner was kidnapped by Obama's and Biden's (and Killary's) 3 letter agencies, and thrown in prison for fake crimes, and set up for a kangaroo court to ensure he went to prison. The Republic was nearly destroyed by the infiltrators, from about 22 million followers/active members down to only a few hundred when nearly everyone ran away. Only about 8 or 9 states had some sort of representation after 2014, even though all 50 states were nearly fully represented before that.

That same group of military recruited Donald Trump to be the president in 2016. Since the beginning, the military has said that once the Republic was restored, it would be a "10 year plan", which would have been around 2020. We all know what happened then. And here we are today.

The military contacted Tim Turner in November 2024 and asked him to join them for a meeting (Terri Minter believes it was in Virginia). Since he was still under house arrest with an ankle bracelet, he had to ask permission which was denied. According to our source, Tim asked them if they could talk to James Geiger, and they replied they would not speak with him. This is what we have been told by our source as of recent date (August 2025).

December 2024 Tim Turner's sentence is commuted but probation stayed. April 7, 2025, all state California Republic interim placeholders fired the self-declared leaders of the Re-Inhabited Republic due to their lack of transparency around the donations and expenditures.
